AMERICAN TROOPS OCCUPYING JUAREZ

Cavalry Scours Mexican Territory
South and East of City,
Capturing Villistas

AMERICAN REPORTED KILLED

Advance Undertaken at 11 P. M.
Sunday to Prevent Further
Firing Into El Paso

(By United Press.)

El Paso, June 16.—"Our work is finished. I will order our troops back from Juarez probably this noon, certainly today," said General J. Erwin, commanding this portion of the district.

American troops completely routed the Villistas in and around Juarez this morning, driving them in every direction, Erwin said.

The total American casualties so far reported were only two slightly wounded.

General Erwin stated that an American report showed 36 dead Villistas in and around Juarez. The total Villista casualties is probably much larger.

Washington, June 16.—American troops were ordered to cross the border to disperse Villista bandits, General Cabell notified the war department today.

Shots had been fired into El Paso and crossing the border was ordered as a measure of safety to protect citizens of El Paso. Acting Secretary of the State Phillips said the Mexican government would be informed today of the war situation. The state department expects no protest from the Carranza government as the expedition is a friendly one.

Villista's secretary was killed and correspondence was secured by the Carranza forces.

Mexican state forces killed 87 Villistas, wounded four and took forty prisoners. The Carranza casualties were seven killed and twenty-three wounded.

Bullets pierced windows of the American consulate and other buildings, it was said. Some stores and saloons were looted.

El Paso, Texas, June 16.—United States troops were in full possession of Juarez today and American Continued on Page Two

SUCCESSFUL FLIERS GO TO LONDON TODAY

Landing in Bog Near Galway, Ireland, Makes Further Flight by Capt. Alcock Impossible

FIRST DIRECT ATLANTIC TRIP

(By United Press.)

Galway, Ireland, June 16.—The men encountered fog and sleet, made the first direct flight across the Atlantic ocean from Newfoundland to Ireland started today for London where they will be received as heroes.

Capt. John Alcock and Lt. A. Brown declared they felt much refreshed after a night's rest here and that they were steeling themselves for the further ordeal of facing thousands of cheering people upon their arrival in England.

The Vickers bi-plane in which they flew 1,930 miles over a stormy sea in 16 hours and 12 minutes, lay in a bog near here where Alcock came down, under the impression that he was landing in a beautiful meadow. The machine was so badly damaged that all thoughts of flying in it to London were given up today.

HENRY KNOTTS DIES SUNDAY

Funeral Services Will be Held Tuesday Afternoon at 2:30 O'clock

Henry Knotts, age 72, died yesterday morning at 10 o'clock at his home near Falmouth, of a complication of diseases. The deceased was a member of the Baptist church and was well known in and around Falmouth, having lived on the same farm all his life. He was also a member of the Odd Fellows lodge. His survivors are his wife, and four children, Mrs. Minnie Gwinup, Mrs. Nora Stuckey, Miss Bessie Knotts and Fred Knotts, and six grandchildren. The funeral services will be held tomorrow afternoon at the Fairview church at 2:30 o'clock and burial will take place in the cemetery there.

THREE FINED FOR SPEEDING BY MAYOR

Merle Winkler, Lawrence Miller and Russell Looney Each Pay \$10 and Costs Today.

RACE IN 2ND STREET SUNDAY

This morning was one of the busiest of many in the city court. Three young men were arraigned for speeding in the city, yesterday. The city administration states that there has been an excess of careless and fast driving during the last few weeks and it must be stopped.

Lawrence Miller, son of Mr. and Mrs. Henry Miller of New Salem; Merle Winkler, son of Mr. and Mrs. Jesse Winkler of this city and Russell Looney, son of Mr. and Mrs. Walter Looney, were each fined \$10 and costs. Miller and Winkler were caught racing in West Second street yesterday afternoon. Henry Miller represented his son in city court and asked that the boys be warned to be more careful. This is the first attempt that the police have made to round up the speeders and more arrests are sure to follow daily unless the practice is stopped, it is declared.

DR. D. IRA LAMBERT RESIGNS AS PASTOR

Announces Sunday That He Will Accept One of Two Attractive Calls Received Lately

TO LEAVE LATE IN SUMMER

Dr. D. Ira Lambert, pastor of the First Presbyterian church here for almost five years, announced his resignation yesterday, to take effect in the late summer or early fall, and will accept a call from a Presbyterian church either in Kansas or a state in the northwest. It is expected that the local church will begin making arrangements at once to look for a minister to fill the pulpit.

Dr. Lambert has received two very attractive calls within the last few weeks as the result of his speaking trip in the interest of the New Era movement, through the middlewest and northwest. Dr. Lambert attended the general assembly of the Presbyterian church at St. Louis as ministerial delegate from the Whitewater Presbytery, and at its conclusion spent several days making addresses for the benefit of the campaign to raise funds for the benevolence of the church. Dr. Lambert in announcing his resignation yesterday, said that he had enjoyed his ministry in Rushville very much. His stay here has been unfortunate in that he has been compelled to live away from his wife, who has been in very poor health. Continued from Page One

SANE SAVING AIM OF SPECIAL WEEK

Vacation Savings Campaign Expected to Begin June 23, Begins Stamp One Goal

IS RECEIVED BY J. H. SCHOLL

To Obtain Pledges for Regular Purchase of Thrift and War Savings Spending and Sane Saving, is

J. H. Scholl, county chairman for the War Savings Stamps campaign, has received information concerning the details of "Thrift Week", which will be observed in Rush county, beginning June 23, one week from today. To get into every household suggestions that will be helpful in wise spending and sane saving, is the aim of the vacations saving campaign.

"Thrift Week" will not be a spectacular or coercive "drive" such as marked the activities of the War Savings Organization last year when the raising of a certain sum of money was the chief objective. It will be a house-to-house canvass under the direction of the county chairman in each county, with a view to educating the citizens of Indiana in the practice of thrift. The canvass includes:

(a) Obtaining pledges for the regular purchase, if possible, of Thrift and War Savings stamps during the balance of the year.

(b) Putting into every household a small blank record sheet, for household expenses, accompanied by an order card through which those desiring to establish the budget system in the home may obtain complete forms and instructions.

(c) Distribution of War Savings literature.

(d) Distribution of new War Savings buttons to all signing pledge cards.

The vacation Savings campaign began with the closing of the schools. It includes:

(a) Taking of pledges for the Continued on Page Five

IS GIVEN A SPECIAL DECORATION BY FRENCH

Private William J. Scott, Son of G. W. Scott, Formerly of Rushville, Honored For Bravery

VISITS IN THE CITY TODAY

William J. Scott of Connerville, who received a special decoration from the French government February 24, 1919, for repairing a broken telephone line under bombardment, spent the day here with Mrs. Mary Bohannon and family, while enroute to Milroy to visit relatives. Private Scott, who arrived home about a week ago, is the son of the late George W. Scott, who formerly lived in Rushville and was well known here. He was a resident of Hamilton, Ohio, when he died, after his son had enlisted.

During the performance of duty, which he volunteered to do and which brought him the decoration, Private Scott suffered a serious wound. A piece of steel penetrated his cheek and knocked the top off of one of his teeth.

The decoration, which is signed by General Petain, reads as follows: "Approval of general commander-in-chief of the American Expeditionary Forces, commander-in-chief of the French armies of the East, cites to the order of the division, Private, William J. Scott, of 304th Signal Battalion, U. S."

"On November 7, 1918, near Brabant-sur-Meuse, volunteered to repair broken telephone lines under violent bombardment."

OLD RULES ARE NOW IN EFFECT

Pre-War Standards of Qualifications for School Teachers Still To be Used.

LETTER FROM SUPT. HINES

Deficiency Must be Made up During the Summer—Professional Training is Required.

Pre-war standards of equalifications for teachers in grade schools connected with commissioned or certified high schools, again are in effect by order of the state board of education.

During the war, when it was difficult to obtain teachers, standards prescribed by the state board were not adhered to rigidly, but L. N. Hines, state superintendent of public instruction, in letters sent to school authorities, calls attention to the fact that the old standard of qualifications has been restored.

The standard requires that before one may teach in grade schools they shall have been graduated in a high school and shall have had one year of approved professional training. Mr. Hines's letter points out that teachers who do not measure up to the standard but were employed owing to the war emergency may continue to teach next year provided they make up their deficiency, but when new teachers are engaged for positions they must meet the requirements.

Mr. Hines's letter follows: On March 9, 1916, the state board of education approved the following:

"In order that pupils in the grade schools may be better prepared for taking up the work in certified and commissioned high schools it is recommended that grade teachers in the elementary schools, where the high schools are certified or commissioned, be required to have at least one year of approved professional training above graduation Continued on Page Eight

CHARLES H. BROWN ELECTED PRESIDENT

Also Chosen Delegate From Indiana Branch Postoffice Employees to National Convention

ORGANIZATION JUST FORMED

Charles H. Brown of this city, assistant postmaster, was elected the first president of the Indiana branch of the National Association of Postoffice Supervision Employees, when it was formed in Indianapolis Saturday afternoon, and was also chosen to represent the Indiana branch at the national convention at Atlantic City.

The association was organized at a meeting in the Claypool hotel of assistant postmasters of the state and supervisors of first and second class offices in Indiana.

A number of resolutions were passed including one which has to do with the reclassification of salaries as proposed by First Assistant Postmaster General John Koons.

Another resolution was passed which indorsed the adoption by Congress of an equitable plan or law for the retirement of disabled and aged postoffice employees. The postoffice employees also went on record as favoring a plan whereby seven hours of night work would be equal to eight hours of day work.

A special resolution was adopted commending the work of the Honorable Martin C. Madden of Illinois in behalf of the postoffice employees.

LOCAL SHOWERS PROMISED

Only Prospect For Relief From Abnormal Temperatures This Week

Occasional thunder showers are the only relief promised from a week of abnormal temperatures, according to the weather man today. The thermometers registered temperatures above ninety degrees and many regarded it as the warmest day of the summer. A slight breeze helped considerably, but with its feeble assistance, the intensity of the heat was not lessened much. The weather prediction for the week says the temperature will be above the average for this season of the year. The showers will be of local character.

HEATON FILES SUIT FOR \$2,000 DAMAGES

Newest Development in Case Resulting From Fistic Encounter East of Rushville May 29

CHARGES PREVIOUSLY FILED

A \$2,000 damage suit, filed in circuit court, is the newest development of the fistic encounter, May 29, between Sanford Heaton, a farmer living east of Rushville, and Arie Colestock of the same neighborhood. Colestock paid a fine of \$1 and costs before Squire Stech, for assaulting Heaton, last Wednesday, and retaliated by filing charges of provoke, assault and battery and surety of peace proceedings against Heaton.

Now comes Heaton with the damage suit, alleging that Colestock, by knocking him down and kicking him, prevented him from performing his ordinary labor and transacting his business. He alleges he has spent \$25 for medical attendance and is still under medical treatment.

The complaint says that Colestock violently struck Heaton on the head, face and arm with his fist and a stone, and violently knocked the plaintiff to the ground, striking and kicking him on different parts of the body. Heaton alleges he is sore and lame, has been disabled for two weeks and still is, and that his injuries are permanent.

WHEAT CUTTING IS STARTED IN INDIANA

Binders Are Running in Harrison County, Bordering on Ohio River. To Begin Here Soon.

WHEAT IS RIPENING FAST

Corydon, Ind., June 16.—Harvesting of Indiana's wheat crop of 1919 has begun. In the county of Harrison, bordering the Ohio river, several farmers were in their fields today and the hum of binders soon will be common for the region. Then gradually northward, as sun and soil combine to ripen the waving grain, will the work spread until it stops at Lake Michigan's shores.

In a few instances cutting began the latter part of last week, the first to enter a field, as far as learned here, being Daniel Rhodes, who lives five miles south of Corydon. Mr. Rhodes began putting the yield of his fields in the sheaf last Friday, a sandy soil having aided the early maturing of the grain. Others followed in rapid succession in the county and the work also is getting under way, or will in a few days in surrounding counties.

Wheat cutting may be started in Rush county the latter part of this week, according to reports received from several farmers today, who say that the wheat has ripened very fast in the last few days.

REPLY WAS TO BE DELIVERED TODAY

Count Brockdorff Expected to Leave at Once For Weimar With Allied Answer to Germans

PRESENTED WITHOUT POMP

Enemy Will be Permitted to Maintain Army of 200,000 For Three Years, it is Announced

(By United Press.)

Washington, June 16.—President Wilson is expected to leave for Brussels tomorrow night, according to a message received here today, and will return to Paris, Friday morning. He hopes now to be home by July 1 or a few days later.

Paris, June 16.—The allied reply to the German counter proposals will be delivered to Foreign Minister Brockdorff at Versailles at four o'clock this afternoon, according to an official announcement.

Upon receipt of the reply, Brockdorff was expected to depart for Weimar at once. A special train has been held in readiness at Versailles, to make possible the immediate departure of the Germans for conference with officials of the Berlin government. No ceremony had been arranged in connection with presentation of the allied response and the copy of the revised treaty. Paul Dutasta, secretary of the peace conference, carried the document to Versailles.

Editors and printers worked throughout the night and this forenoon in a feverish effort to complete the reply. At 5 o'clock this morning, corrections were still being made, but the delivery of the document was assured.

The delivery, however, it developed later was not to be printed in form. A copy of the original treaty, with the changes written in red ink, was prepared for Von Brockdorff-Rantzau. With this were ninety-nine other copies of the treaty, on which the Germans can make the corrections themselves from the first.

Secretary Dutasta was authorized to notify the Germans that they will have five days in which to accept the revised terms. This Continued on Page Six

WILL CARRY FIGHT DIRECTLY TO PEOPLE

President Wilson Plans to Ask Their Support of Peace Treaty and League of Nations

MAY BE ON WAY HOME SOON

(By United Press.)

Washington, June 16.—President Wilson upon his return home, immediately will carry the fight for the peace treaty and league of nations covenant directly to the people, according to plans being perfected now.

Tentative plans to include stops at principal cities in the United States, are now before the president in Paris.

The president's determination to fight for the treaty and league was voiced in a private message received here in which the president said nothing must interfere with his "getting the country to understand the treaty and league."

When the president's swing around the circle will occur will depend entirely upon how soon he will be able to leave Paris.

It now appears likely that he will be on the high seas enroute home within ten days unless some hitch is encountered in the signing of the treaty by the Germans.

The Thomas Changeable Speed Mower

The great exclusive advantage of our two-speed mower is bringing us an ever increasing trade. No other mower has it. You don't have to run the mower all the time on the usual fast speed required for heavy cutting because in medium grass and hay and light hay, weeds, etc., you can use the slower speed and thus save a great deal of wear on the machine. These gears run in a bath of oil. The sickle bar has three adjustments.

COME AND SEE THIS MOWER AND ALLOW US TO EXPLAIN IT TO YOU.

AMERICAN TROOPS OCCUPYING JUAREZ

Continued from Page One

ican cavalry scoured the Mexican territory south and east of Juarez, capturing or killing every Villista soldier they found.

The American advance into Juarez was undertaken at 11 p. m. Sunday by orders from General Erwin, commander in the El Paso district, to prevent further firing into this city as the result of the fighting in Juarez which was under heavy assault from a large Villista force.

Piloted by three armored cars, a number of American machine gun crews and a one-pounder led the advance. They were closely followed by negro troops of the 24th Infantry wearing trench helmets and campaign packs. Two companies of the 19th Infantry followed after across the bridge to Juarez. The American advance encountered little resistance at first, but sniping against the United States forces began within a short time. After an American soldier was reported killed, orders were given to hunt down the snipers and kill them on sight.

In the meantime the guns of the 82nd Field Artillery opened a bom-

bardment from the El Paso side against the race track east of Juarez where the Villistas were entrenched.

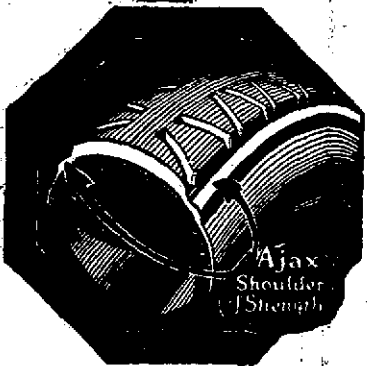

The Fifth and Seventh regiments of cavalry drove their mounts through the shallow water of the Rio Grande. Col. Tompkins of the 7th, commanded the cavalry brigade. He tried an enveloping movement against the race track following the box barrage of the American artillery which was intended to cut off the Villistas from escape. At last reports the American advance was going well.

FALLS FROM BICYCLE.

Clude Bullard of East Ninth street suffered painful injuries Saturday evening when he slipped and fell from a bicycle he was riding. He has lost almost complete control of his legs.

Harold Perkins has returned from Crawfordville, where he is attending Wabash college, to spend the summer vacation with his parents. Mr. and Mrs. Walter Perkins. He is employed at the Rush County National Bank.

The funeral services of Mrs. Sarah Macklin, who died at her home near Gowdy Thursday afternoon at 3 o'clock, were held yesterday at the late residence at 10 o'clock in charge of the Rev. John Scullion. Interment was made in the Moscow cemetery.

Los Angeles-Yosemite Economy Run Won by Franklin Car

Big Western Event Cleaned Up By Hamlin Entrant, With Turner of Pasadena At Wheel.

A series of B. Franklin, entered by Ralph Hamlin, Franklin dealer at Los Angeles, Cal., and driven by Stanley Turner, Franklin man at Pasadena, won a sweeping victory in the third annual economy run from Los Angeles to the Yosemite on Friday and Saturday, May 30 and 31. The Franklin won every first place on the program from a crowded field, captured three cups and enough honors to last Ralph Hamlin and his organization the rest of the summer.

The Franklin's first victory came in its own class of cars costing \$2,000 or more. It was expected that the Franklin would capture this prize, but that it could win the sweepstakes cup for the best all-around showing and the Automobile Club cup for the best economy on the weight-miles basis was a shock to the other entrants, although not to the Franklin representatives.

The winning of the cup for a ton-mile victory utterly confounded the opponents of the Franklin who have claimed in the past the Franklin can win only when it carries the lightest weight. So the ton-mile per gallon contest was devised to equalize every car according to load. The Franklin ran away with the honors just the same with forty-nine and nine-tenths ton miles per gallon to its credit.

Customary Franklin performance was reported in other ways. The car averaged 28.8 miles per gallon of gasoline, traveling the 374.5 miles of the race on 13 gallons.

To Franklin men, it is only one more victory in the mounting series that is steadily making the economy contest a thing of the past, with the only contest that for second place. To other manufacturers, it must be disconcerting to feel that one car ALWAYS demonstrates its superiority.

A Sample of Bureaucracy

If the recommendation of a member of the United States tariff commission, who proposes to impose on the president the power to levy tariff, were acted upon favorably, we would see set up in this country a bureaucracy that would surpass the one which was created because of war conditions.

This member of the tariff commission advocates a law which will authorize the president to levy by proclamation additional duties on goods which are being systematically dumped into the United States, or to prohibit their importation in case he has reason to believe that the result will be to injure, destroy or prevent the establishment of an American industry.

There you have one more illustration of the grasping ambition of bureaucracy. More power, is the limitless desire, "Leave it to me," is bureaucracy's motto. Personal government, is the ideal. Government by law is not even a last resort.

Just think of the possibilities of a broad creation of discretion such

For Skin Tortures

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using Zemo, obtained at any drug store for 35c, or extra large bottle at \$1.00.

Zemo generally removes pimples, blackheads, blotches, eczema and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

RUSHVILLE, INDIANA

Certain Success

Will follow saving. The great men of every country—the world's leaders in every line—unite in saying this. Read their own words:

"Save, young men, and become respectable and respected. It is the surest way." — Benjamin Franklin.

"Teach economy; that is one of the first and highest virtues, it begins with saving money." — Abraham Lincoln.

"Economy is the keynote of character and success. A boy who is taught to save his money will rarely be a bad man or a failure; the man who saves will rise in his trade or profession steadily; this is inevitable." — William Gladstone.

"The little savings banks in the home means more for the future of the children of the family, almost, than all the advice in the world. It gives them the right start." — William McKinley.

"The man who can not and does not save, can not and will not do anything else worth while." — Andrew Carnegie.

Sap and Salt

By BERT MOSES

When things get bad enough they always cure themselves.

Did you ever notice how many "specialists" wear pointed whiskers?

Old women are just as curious as the young, but about different things.

A politician cares little for the truth so long as he can hold on to his office.

Fault-finders fall back on the victuals when there is nothing else to complain about.

Hez Heck says: "Eve started in being curious, and women have never since got rid of the habit."

Seems like men who dance exceedingly well do not make as good husbands as men who dance only "so-so."

as that proposed! Certain commodities are shipped in large quantities into this country. Persons interested as manufacturers of the same commodities ask for a proclamation against the importations. The importers oppose the issuance of a ban. Speculators lay in a supply of the goods imported at low prices and suddenly the country is taken by surprise by issuance of a prohibition order that shuts out further importations; increases the value of goods already brought in, makes fortunes for those who bought up the supply, and starts rumors as to some one having an advance tip as to the best time to buy, in what quantities, what commodities, and at what prices.

People who remember the rumors of fortunes made in the stock market a few years back by men who got an early tip on a Presidential note, will see the danger of repetition of incidents that tend to shake confidence in government. Creating opportunities for that sort of thing is hardly the part of wisdom.

The proper policy for America is to regard importations of articles that can be produced here as "unfair" to American producers. We should prevent such unfair competition by imposing an import duty at least equal to the difference in cost of production here and in the

country of lowest cost of production provided the latter country sells to us a quantity sufficient to be a menace to our home industry. But the rate of duty, the time and manner of its establishment, should be fixed by law, so that every person interested may have equal knowledge of the proposed action and the time when it is to become effective. The rights of importers and producers should be fixed by law and not be subject to the varying discretion of a president.

There seems to be method to Mr. McAdoo, since he is using his clients, Charlie Chaplin and Doug. Fairbanks, to advertise the Boy Scouts campaign, of which he is national chairman.

If all of the predictions that have been born in Paris, had come true, the Big Four would have closed up shop long ago and the Germans would have had nothing about which to complain.

The League to Enforce Peace may discover that it is misnamed if it continues to insist on the league of nations as a means of avoiding war.

Because there has been a prisoner famine at the jail does not necessarily mean that there are not a lot of people who ought to be in jail.

Religion probably does not fall off in June—but church attendance does.

LABOR PROBLEMS BEFORE ROTARIANS

Convention Plan to Start Movement to Adjust Difference Between Labor and Capital

FIGHT WITH "GOLDEN RULE"

Rotary Extension Both in America and Abroad Is Another Subject For Study

(By United Press.)

Salt Lake City, June 16.—Rotarians today were prepared to help fight Bolshevism and labor unrest with what they believed is the strongest weapon—The Golden Rule.

At the annual convention which opened here today more than six thousand Rotarians planned to start a movement by which capital and labor may adjust their differences.

Officials expected the convention to recommend closer association between employer, manager and labor. Co-operation, profit sharing, better working conditions and encouragement to own homes were cited as some means by which conditions may be remedied.

Dr. Henry Suzzallo, president of the University of Wisconsin, was to discuss "Capital, Labor, Management and the People." Suzzallo's address and the report of the International Rotary Committee which has been studying the question, were to form the basis of discussion on labor.

Boys' work also was to be given impetus, according to plans. Education and training in the trades, together with erection and maintenance of hospitals and homes were to be discussed.

Rotary extension both in America and abroad, halted by the war, was another subject up for study. At a vocational meeting of builders, lumber and brick manufacturers, study will be made as to ways and means for loosening the tension of present day construction. Members said they expected to get back of the government's housing plan.

Trips to Yellowstone Park and other districts of interest have been planned.

Officers of the International Association of Rotary Clubs are: John Poole, Washington, D. C., president; Albert S. Adams, Atlanta, Ga., vice-president; Edward R. Kelsey, Toledo, O., second vice-president; Willard I. Lansing, Providence, R. I., third vice-president, and C. R. Perry, Chicago, secretary.

Amusements**Dorothy Dalton at Princess**

"The Homebreaker" in which Dorothy Dalton is featured, is the offering at the Princess theatre Monday.

It is the story of how a clever young girl who had learned to know life because of her experiences as a traveling saleswoman, undertakes to cure her erstwhile lover of pleasure madness that has estranged him from her.

To do this, she enlists his aged father in her services, and the old man steps out to the music of youth even though it costs him sore feet and an aching back. Miss Marbury, played by Dorothy Dalton, succeeds in uncovering a plot by designing crooks to rob the man she loves and his father. Shrewdly she turns the plans of the crooks to her own use so that she brings them into the hands of the police and her lover to her own feet.

Anna Little in "Something to Do," will be shown Tuesdays.

Second Episode Tonight

The second episode of "The Red Glove" is being shown at the Myatie theatre tonight, with Marie Walcamp in the starring role. She is star of the new Universal 18-part serial, "The Red Glove" directed by J. P. McGowan, has been given the sobriquet of "Marie Wildcat." The appellation came from Joe McDonough, McGowan's assistant cameraman. McDonough's duties have embraced that of taking panorama scenes in the different episodes.

"But when Marie's working," said Joe, "I never can tell for sure just what's going to happen, notwithstanding McGowan's directions. She's just like a wildcat—when she feels the impulse, she strikes out—and while the result is always dramatically satisfactory—think of the poor cameraman. It's harder to keep 'Marie Wildcat' in a camera lens when she's on a horse than anything I ever attempted."

Tomorrow Tom Mix in "Hell Roarin' Reform," will be shown.

After Your Baby Is Born

Think Now About the Time to Come Afterwards.

When you hold in your arms your new infant, be sure that you can feel that before his arrival you did all in your power to give to it a happy pre-natal influence.

Scientists say that the thoughts and feelings of the expectant mother greatly affect the health and disposition of the future infant.

For over half a century thousands of women who have used the time-honored remedy, Mother's Friend, say that they entirely escaped nausea, nervousness and that peculiar distressing feeling so usual where nature is unaided. They thus preserved a wonderfully bright and happy disposition, which reflects so markedly upon the unborn child.

By the regular use of Mother's Friend the muscles are made and kept soft and elastic to readily yield to nature's demand for expansion without the usual wrenching strain. The nerves are not drawn upon, and as a consequence the expectant mother is calm and serene and the nights are not disturbed with nervous twitches, and the crisis is one of joy and happiness.

Write the Bradfield Regulator Company, Dept. K, Lamar Building, Atlanta, Georgia, for their Motherhood Book of value to every woman, and get a bottle of Mother's Friend from your druggist and begin a treatment that will bring real results.

There is but one practical way to REDUCE the COST of LIVING, and that is by paying close attention to every detail of buying.

Why Gasoline Prices Are Low

THE fact that gasoline prices are low constitutes the achievement of an ideal on the part of the Standard Oil Company. There are several contributing factors.

The ingenuity of the automobile engineers in producing cars at moderate prices and the efficiency of the Standard Oil Company in producing gasoline in sufficient quantities to supply the demand have placed both in the light of staples.

The demand for gasoline is steady—the supply is steady—thus enabling the Company to utilize its equipment to a maximum capacity which in turn keeps down the costs and therefore selling prices.

The Standard Oil Company through long years of experience is able to rescue and utilize all of those fractions which go to make gasoline, and to utilize all by-products for commodities of universal use.

This plays an important part in keeping down manufacturing costs on the basic product—gasoline.

The Standard Oil Company (Indiana) furthermore steadfastly adheres to a fixed policy of supplying first, the patrons of the eleven states it serves.

Thus at all times there is an ample supply for every five gallon buyer and every five thousand gallon buyer with no embarrassing demands from outside to drain the supply and force an increase in price.

It is by this husbandry that the Company is able to keep down the price of gasoline that you may run your car for the enjoyment of your family or the furtherance of your business without great expense for fuel.

You may not know that gasoline sells in this market for about one-half or one-third the price charged in Europe even under normal pre-war conditions.

Standard Oil Company

WESTERN GOLFERS OPEN AT ST. LOUIS

Twentieth Annual Tournament of Amateurs' Association Will Come To End June 21

PLAY FOR THORNE TROPHY

Gold Medal Will be Awarded Winner, Silver One to Runner-up and Bronze to Losers.

St. Louis, June 15 (United Press)—Francis Ouimet, "Chick" Evans and virtually every other golfer of prominence in the United States is here today for the twentieth annual tournament of the Western Amateur Golf Association. The tournament will be completed June 21.

Play is for the George R. Thorne trophy and winner of the tourney becomes the champion of the western Golf Association. A gold medal will be awarded the winner, a silver medal goes to the runner-up and a bronze trophy to losers in the semi-finals.

Entres closed June 9, showing one of the largest arrays of golf celebrities gathered since pre-war days. The schedule for the tourney follows:

Monday, June 1.—Elimination round, 18 holes medal play. Sixty-four lowest score to qualify.

Tuesday, June 17.—Qualifying round of 18 holes medal play, 64 to play, lowest 32 to qualify, made by addition of scores in elimination and qualifying rounds. Second 32 to qualify for president's cup play.

Wednesday, June 18.—Morning, first half of second round match play. Afternoon, second round same event.

Thursday, June 19.—Morning, first half of third round of match play, 18 holes. Afternoon, second half same event, 18 holes.

Friday, June 20.—Morning, first half of semi-finals 18 holes. Afternoon, second half of semi-finals, 18 holes.

Saturday, June 21.—Morning, first half of the finals, 18 holes. Afternoon, second half of the finals, 18 holes.

A splendid program of special

events has also been arranged, as follows: Monday, the lowest thirty-two scores made in the elimination play that are greater than those of the lowest sixty-four shall qualify for the vice-president's trophy Tuesday, first rounds of play in the president's and vice-president's trophy contests. Wednesday, second round of play in these events. Thursday, third round in these events. Friday, semi-finals, and Saturday, finals in all divisions, including the consolation contestants. All play is for thirty-six holes.

ASSISTANT EARLHAM BUYER

Russell Tittsworth, son of John A. Tittsworth of this city, has been appointed assistant purchasing agent of Earlham college, at Richmond, Ind., and has already taken up his work there. Mr. Tittsworth was just graduated from Earlham last week.

THE BEST TEST

Is The Test of Time

Years ago E. L. Hinkle of 815 N. Jackson St., Rushville told of the good results from using Doan's Kidney Pills. Now Mr. Hinkle confirms the former statement—says there has been no return of the trouble. Can Rushville people ask for more convincing testimony?

"Sharp pains in my back radiated to all parts of my body, and I was hardly able to walk," says Mr. Hinkle. "I couldn't rest well, owing to my kidneys acting irregularly. I found no relief whatever until I began using Doan's Kidney Pills. Nine boxes entirely cured me and made me feel like a different man. The terrible pains in my back left and my kidneys again acted regularly."

MORE THAN FIVE YEARS LATER, Mr. Hinkle said: "The cure Doan's Kidney Pills made for me is still lasting. I never have anything more serious now, than an occasional tired feeling across my back. A few doses of Doan's soon fix that up."

Price, 50c., at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Hinkle had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—(Adv.)

ARE ORGANIZING FOR THE 1920 CAMPAIGN

Political Parties Prepare Details of Organization, Including Collection of Funds

NO PLANS ARE ANNOUNCED

(By United Press.)

Indianapolis, Ind., June 16.—In a two day session to be held some time during the present week, organization of the state for the 1920 campaign will be attempted by the democratic state committee, according to plans announced by that body.

Details of organization, including collection of campaign funds will be worked out at this session.

No definite plans have been announced for formation of the woman's organization but Chairman Fred VanNoy said he believed the organization adopted by the men voters will be followed by the women.

Van Noy will launch a movement to bring the 1920 democratic convention to Indianapolis. The successful handling of the Shriners' convention here last week, he said, is proof of the city's ability to accommodate the big political gathering.

State chairmen of Michigan, Illinois, Kentucky and Ohio will meet with the Hoosier committee here some time soon for the purpose of planning co-operation in the national campaign, it was stated.

FIRST BOY SCOUT CAMP WITH EIGHTY MEMBERS

Three Will be Held at Indianapolis During the Summer Vacation This Year

FIRST AID ALSO TAUGHT

(By United Press.)

Indianapolis, Ind., June 16.—The general Boy Scout camp, first of three to be held during the summer, opened today at the Scout reservation, near Ft. Harrison. Eighty boy scouts were present, the first eighty to pay the \$1 registration fee.

A new swimming pier has been erected and canoes provided for the boys. Other attractions in the camp include an improved parade ground and game area, new camp fire site, tennis and volley ball courts and a new mess hall.

First aid classes start this morning. Wireless, signalling, bird study, tree and plant study, swimming, cooking, axmanship, handicraft, use of ropes and lassoes will be taught in morning sessions during the two weeks outing.

NEW OFFICERS ARE INSTALLED SUNDAY

In Spite of Intense Heat, Large Crowds Attend Salvation Army Services Sunday

SIX ADDITIONS TO CHURCH

In spite of the intense heat, good crowds turned out to the meetings held by local Salvation Army Sunday. At the morning meeting local officers were installed to carry on the various branches of the Salvation Army activities.

The following appointments were made:

C. S. M., William Hunter; J. S. M., Frank Gipson; Welcoming sergeant, M. Kirk; publication sergeant, Mrs. M. Kirk; regular sergeant, Miss Alice Montpetit; ward sergeant, Miss Sarah Aultman; color sergeant, Ed Curry.

The singing of the songsters brigade and also the special solo by Miss Opal Roeder were much appreciated. Six additions were made to the church Sunday.

LONDON—Two hundred and sixty-two women, and six men, voted in a Portland, Eng., municipal election for which there were two women candidates.

BLUE FRONT 115 West Second St. "A Little Off of Main, But It Pays to Walk"

The Loyal Women of the Main Street Christian Sunday school will meet tomorrow evening with Mrs. Laura Alexander at 904 North Main street. A good attendance is desired.

The superintendent of the Junior League of the M. E. church cordially invites all children of the society to be present at the picnic to be given in the City Park tomorrow afternoon. All children are requested to bring their baskets.

The Ladies Missionary Society of the First Presbyterian church will be entertained at the home of Mrs. J. T. Kitchen in West Third street tomorrow afternoon at 2:30 o'clock. All ladies of the congregation are invited to attend.

Mr. and Mrs. Thomas Matney, of Orange entertained with a prettily appointed dinner party yesterday. The table was centered with a bouquet of flowers and covers were laid for Mr. and Mrs. George Rockefellow and Mrs. Anna Custer of Connorsville.

Mr. and Mrs. Wilbur Wilson entertained a number of their friends with a prettily appointed six o'clock dinner party last evening. The dining table was centered with a large bouquet of flowers and covers were laid for Mr. and Mrs. Richard Whisker and Charles Davitt of Shelbyville and Mr. and Mrs. Dick Smith of this city.

Mr. and Mrs. C. E. Brown and family entertained at their country home at Shively's corner, yesterday, a number of their friends with a bountiful pitch-in dinner. The guests were the Rev. and Mrs. C. P. Watkins, of Danyille, Ind., Mr. and Mrs. P. L. Beher and family, Mr. and Mrs. A. M. Newhouse, Mr. and Mrs. J. R. Stevens, Mr. and Mrs. George Smalley, Mr. and Mrs. L. E. Newhouse, Mr. and Mrs. R. F. Souders, Mr. and Mrs. W. D. Abernathy, Mr. and Mrs. L. A. Johnson of Shirley, Mrs. Spurgeon Sommers and Lowell Smalley. The afternoon was spent socially with music.

A double wedding took place yesterday morning at nine o'clock at the Main street Christian parsonage when Miss Edna Gibson, daughter of Mr. and Mrs. Elmore Gibson, living west of the city, became the bride of Charles Frazier, son of Mr. and Mrs. John C. Frazier, and Miss Stella Gibson, also daughter of Mr. and Mrs. Elmore Gibson, became the bride of Ozro Farthing, son of Mr. and Mrs. E. J. Farthing, living in East Seventh street, the Rev. L. E. Brown performing the ceremony. Both young couples are well known in this city. Mr. and Mrs. Frazier will reside on a farm near the city and Mr. and Mrs. Farthing will make their future home in this city.

REPLY WAS TO BE DELIVERED TODAY

Continued from Page One
period will include the three-day notice of denunciation of the armistice, leaving the way open for the allies to begin military operations Saturday against the Germans should they refuse to sign.

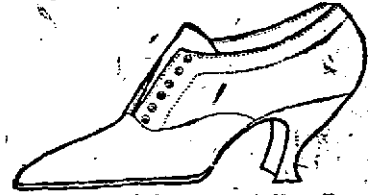

Germany will be permitted to have an army of 200,000 men for three years. This is one of the changes in the peace terms that has sedulously been kept secret. The Germans in their counter-proposals expressed a willingness eventually to conform to the 100,000 force specified in the treaty, but asserted that the reduction should be made gradually in order to assure adequate military strength for the preservation of internal order.

Germany's admission to the league of nations is fixed for "the near future." Her admission will enable Germany to bring up for discussion her economic proposition. Germany will have four months to submit to the allies proposals dealing with her total indebtedness through reparations and methods for the payment thereof. She may propose merchandise and labor. The allies are to reply within two months.

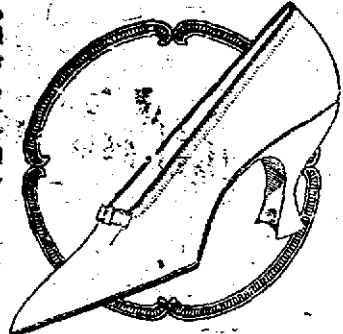

Having finally disposed of the German treaty, the council of four today turned to a consideration of the conditions of peace with Austria. Attention was given the note recently submitted by Dr. Renner,

Are you prepared for summer with dainty white footwear? Stylish, cool and comfortable

WHITE FOOTWEAR is Queen at the club, on the street, at the resorts, on Summer outings, and at home. White shoes are essential to complete your light and dainty Summer apparel. Pumps and Oxfords with either military or high Louis heel are here in many styles. Also the popular Keds with side straps or pump effect with rubber soles and heels. A common sense slipper to relieve the strain of high heels, easy to slip on while at home—a true friend for the hot summer afternoons. These are priced so that they can be procured by everyone.

Smart Oxfords of Finest White Reign Cloth Are Highly Favored.

Dainty White Fabric Pumps Are a Fashionable Summer Necessity.

Children's and Misses' White Slippers

to make their little feet cool for the Summer. Many styles in fabrics which are easily cleaned. Whatever your choice—for yourself or children—there is a white slipper or pump for you, representing value and satisfaction, doubly assured by our service and sensible prices.

MAUZY'S SHOES ARE ALWAYS "FULL VALUE"

The Mauzy Company

head of the Austrian delegation. Inability of the council to complete the missing sections of the Austrian document because of the more pressing German questions has caused a willingness to extend the time for Austrian protests and counter-proposals, which expires Tuesday.

The allies have promised Germany to deliver within one month a list of persons whom they intend to try for the responsibility for the war and violation of the laws of war.

A plebiscite for upper Silesia will be taken within six to eighteen months.

A clause deals with the protection by the league of nations of German minorities inhabiting the districts taken from Germany. Another deals with the interallied civil commission, which will administer the left bank of the Rhine occupied by the allied troops, to which the existing military commission, will be subordinated.

THREATENING TO MOVE THE NATIONAL CAPITAL

Congress is Aroused by Washington Profiteers—Iowa and Ohio After the Juley Plume

WASHINGTONIANS ARE SERIOUS

(By United Press.)
Washington, June 16.—They're talking of moving the capital, and gosh the profiteers are "scared!"

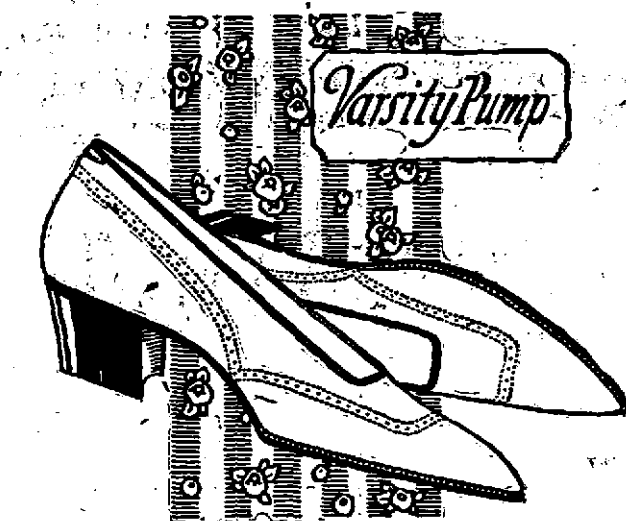

Senator Sherman, Illinois, a plain spoken man who goes marketing with a basket on his arm, and who is the new chairman of the District of Columbia committee, started it all when he said if Washington landlords and merchants didn't stop charging so much for things, congress ought to get up and take the capital city out to Iowa, or some place away from here.

Washingtonians took it seriously, because Sherman has said some mighty serious things about profiteering here, in senate speeches. The president of one of the numerous "Give pride" organizations which flourish in Washington hurried to Presidential Secretary Tumulty to learn whether there really was a possibility of congress and the government departments going west, leaving nothing here but the Potomac and the Washington monument.

Since Sherman made his remark offers have come from several states (made quite unofficially of course, but in some cases by influential citizens) to have a real honest to goodness capital city set up in those commonwealths, with an iron clad guarantee against profiteering.

Senator Kenyon said he knows Iowa would do the job right, and Senator Reed asked that the claims of St. Louis be not overlooked. Senator Harding spoke feelingly of the Ohio climate and Hiram Johnson declared California would prove a matchless place for the capital. Senator Sheppard proposed Texas and Senator Sherman himself modestly suggested that Chicago wouldn't be a bad choice.

And now most any day it is likely that some chipper congressman

will really introduce a bill to do it, thus throwing the Washingtonians who lived here before the war into new apprehensions lest the source of their new wealth be suddenly cut off.

NINETEEN PERSONS DEAD.

Tuscaloosa, Ala., June 16.—Nineteen persons, most of them children, are known to have drowned in Warrior river, near Tuscaloosa last evening, from a pleasure party of fifty-three. Their gasoline launch was overturned in midstream near Holt, a suburb. Twelve persons were reported missing.

HAAGS GO ON TRIAL

Indianapolis, Ind., June 16.—Charged with operating a blind tiger, two druggists, Louis E. Haag and J. A. Haag were to face trial today.

Mrs. Ford Retherford underwent an operation at Sexton's hospital this morning.

Tops Built or Repaired

This page is read eagerly by over 5,000 readers daily. It is invaluable for merchants, farmers, professional men and all progressive people.

OUR RATES

All advertisements, except display, are charged for at the rate of one-half cent per word for each insertion. We earnestly solicit these advertisements by telephone and expect payment when the collector calls. Ads mailed in should be accompanied by the remittance, as the amount is generally too small to justify bookkeeping.

Cards of Thanks and Obituaries are charged for at the same rate, minimum charge 25 cents. No charge accounts opened.

CLASSIFIED ADVERTISEMENTS ARE NOT TAKEN AFTER 10:00 A. M. FOR PUBLICATION ON THE SAME DAY.

PRODUCTION METHODS ARE THEME OF FILM

Educational Features Will be Shown at Princess Theatre Tuesday Evening

ADOPTED BY THE GOVERNMENT

A question that is often asked in connection with the recent war with Germany is, "How did America, in the space of months, overcome the twenty or more years' start that Germany had in the manufacture of war materials of every description?"

Those who know answer the question in three words. "By quantity production." But this answer means little to the average person who has not seen the American method of quantity production in actual operation.

The educational features which will be shown at the Princess theatre Tuesday, will give such people a clearer insight into how the feat was accomplished. The motor car industry, which has contributed so much to the manufacturing world in the way of straight line production methods and the elimination of lost motion and re-handling of materials, is the industry featured.

Whether you are particularly interested in motor cars or not, you will be fascinated by the combination of precision and magnitude passing before your eyes. Close-

ups of the important operations are shown liberally, and anybody witnessing these typically American methods of building cannot but feel a thrill of pride at the achievements of his countrymen in the mechanical world.

These films have been adopted by the United States Government as a part of their educational series.

MORE RED BLOOD AND STEADIER NERVES FOR RUN DOWN PEOPLE

The World Demands, Strong, Vigorous, Keen-Minded, Men and Women

It has been said of Americans that they work their habits overtime.

Many become nervous and inefficient by overwork.

By worry, despondency, social affairs, robbing brain and body of needed rest; excessive use of tobacco, indulgence in strong alcoholic drink—excesses of every kind that burn up the vital powers so necessary in these trying times to make both men and women fit to be of help to themselves and others.

It is time to be temperate in all things. The man or woman with impaired nerves caused by impoverished blood lacks vigor, the ambition, the endurance and the keen mind of those who avoid excesses.

Tiredness, despondency, fear, trembling hands, want of confidence and even cowardliness, are due in a large measure to abused nerves.

People with plenty of red blood corpuscles and strong, healthy nerves have no desire to shirk work and lean on others for guidance and support.

There is hardly a nerve-shattered man or woman (unless of an organic disease) in America today who cannot become alert and clear in mind; vigorous and energetic in body in a very few weeks and at trifling cost.

To become strong and ambitious, to feel that work is not drudgery; to have steady nerves, abundance of red blood and power of endurance; to be not only a man but a man now, a superhero, you must take seven tablets of Bio-feren every day for seven days—and take them faithfully.

Take two after each meal and one at bedtime and after seven days take one only after meal until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not twice as steady as before—if you do not feel ambitious, more vigorous and keen-minded, the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them.

Bio-feren is without doubt the grandest remedy for nervous, rundown, weak, anemic men and women ever offered direct through druggists and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

However you travel

whether by rail, steamship, or automobile, you will find American Bankers Association Cheques the safest, handiest way to carry your money.

"A. B. A." Cheques are safe, because if not countersigned they are useless to anyone but the owner. They are convenient,

because hotels, railroads, steamship companies and merchants everywhere accept them as readily as cash in payment of bills, and because the only identification needed is the countersignature of the owner in the presence of the person accepting the Cheques.

THE PEOPLES NATIONAL BANK RUSHVILLE, INDIANA

The Hog Feed That Grows and Finishes Them

GREATEST GAINS
LOWEST COSTS

GUARANTEED ANALYSIS
Protein...14% Fibre...9.5%
Fat...3.5% Carbohydrates 54%
Bone Bone...3.5%

INGREDIENTS: Pure Blood Meal, Milk Albumen, Corn Feed Meal, Wheat Middlings, Old Process Linseed Oil Meal, Ground Barley, Ground Oats, Bone Meal, Ground and Bofied Wheat, Barley and Kafir Screenings and 1% Salt.

MONEY MAKING FACTS

Our latest analysis exceeds the above guarantee. We are now putting the Milk Albumen in this feed which reduces the fibre and increases the fat and protein. Milk Albumen is pure, dried, sweet milk. It is 50 per cent protein. This keeps the brood sows in good condition; grows young pigs; builds the frame that will carry the weight and puts on the finishing fat in a short time at a low cost. Once tried, always used. A trial order will convince you. Drop in and look at a sample and take home a few bags for a trial. Let the hog be the judge—it will give you the correct verdict and substantiate our claims.

TO SEE SON FOR FIRST TIME

Merlin Senior of Clarksburg, Gassed
in France, Back in States

Mrs. Merlin Senior of Clarksburg received word Saturday to the effect that her husband had landed in New York from overseas and was in the hospital there. He has been under the care of a physician since last fall when he was gassed during the heavy fighting on the western front. He is reported as steadily improving and expects to be home soon. He is very anxious to get home and get acquainted with the junior Senior, who is but four months old and has never seen his father.

SAME SAVING AIM OF SPECIAL WEEK

Continued from Page One
saving by pupils of 10 per cent or more of their earnings or allowances during the vacation period, for investment in Thrift or War Savings stamps weekly, monthly or upon the pupil's return to school in the fall.

(b) Making it a point to know the opportunities for spare-time employment open to boys and girls, and encouraging them to take advantage of such opportunities. If the pupils can earn money during the vacation period it naturally follows that they will have money for saving and investing.

(c) Obtaining reports on the success of the vacation Savings plan soon after the beginning of the fall term of school.

The Indiana Organization has just finished a drive for the establishment of War Savings and Thrift stamp agencies "wherever money passes over the counter." Secretary of the Treasury Glass believes the only compulsion in the purchase of War Savings Stamps should be self-applied, but it is necessary to facilitate the practice of thrift.

The drive for agencies has made it easier for savers to invest their savings. By shortening the distance between the inclination to save and the actual purchase of a Thrift or War Savings Stamp—through the establishment of many agencies—the War Savings Organization expects to head off many temptations to spend foolishly.

OLD RULES ARE NOW IN EFFECT

Continued from Page One
from a commissioned high school."

It is expected that the spirit of the recommendation will be observed by township trustees and school boards in employing teachers in the elementary grades directly connected with a commissioned or certified high school. It applies to all grade teachers (a) of a town or city which maintains a commissioned or certified high school; (b) of a township high school which is commissioned

Here Are Some Figures That Are Eloquent

WITH MORE THAN 100,000 Reo "Speed Wagons" and Passenger Cars in service last year, the factory Parts Department showed a total revenue of \$700,000.

THAT'S ONLY AN AVERAGE of \$7.00 per "Speed Wagon" or Passenger Car paid by Reo owners for replacement parts during the year!

WHEN YOU CONSIDER that, of those 100,000 Reos, only 20 per cent were in their first season, another 25 per cent in their second season, and the rest ranging all the way from 3 to 14 years of age, the figures are still more astonishing.

THEN CONSIDER, TOO, that those replacements included parts injured or broken in major accidents and collisions, as well as ordinary wear, and you will see that the normal replacements must be even lower than that average.

OBVIOUSLY, many Reo owners must have had to buy no replacement parts at all considering a street car collision frequently calls for two or three hundred dollars worth of parts.

AS A MATTER OF FACT, the records show that thousands of Reo owners have yet to buy their first replacement part.

THOSE FIGURES TELL the story of Reo quality—Reo stability—Reo dependability—as no mere words could do.

LOW UPKEEP is a Reo attribute, and it is due mainly to that Reo policy of putting "50 per cent oversize"—the Reo standard factor of safety—in all vital parts, such as axles, driving shafts, bearings, etc.

THE REO OILING SYSTEM is another reason. For a faulty lubricating system is the source of many ruined bearings and parts of great expense. The Reo system is well nigh perfect.

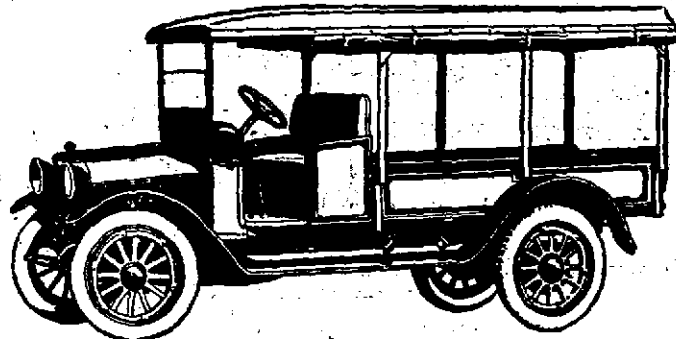

THAT IT PAYS to build that kind of product is best proven by the tremendous over-demand the Reo output always has enjoyed.

AT THIS TIME it is even greater, if possible, than at any previous time.

SO THE ONLY WAY to be at all sure of getting a Reo "Speed Wagon" is to order early—now.

BETTER SEE ABOUT THIS at once. Delay may result in your having to accept your second choice in lieu of a Reo.

ST. JOHN'S DAY CELEBRATED

Many Colored Masons From Out of City Entertained Here Sunday.

The local members of the colored order of Masons celebrated St. John's day yesterday when they entertained many visitors from out of the city. The Rev. Mr. Richey of Indianapolis delivered the address of the afternoon. Eighty-two members of the Gettysburg commandery of Indianapolis took part in the parade and their band furnished the

music. The Richmond and Connersville commanderies were also represented.

London—"All is not gold" in goldfish nowadays. Owing to the lack of German supplies, the "gold-fish painting" industry is on the increase. Roach are the fish to suffer.
